DMC Products Limited

DMC literally stands for Designed & Made in China. Benefiting from one of the world's largest sourcing grounds, DMC selects and combines different materials to create its own unique designs. Constantly adding in new elements and exploring new textures has become DMC's mission. The company has created a series of objects for homes and offices that evolve around daily needs, ranging from flawless wooden frames and trays, colourful vases and contemporary desktop accessories to multifunctional interior objects. With its strength in design and manufacturing, it also explores business opportunities through developing customised designs and products, and is a reliable OEM/ODM partner.
