## *ATHENA*<sup>®</sup> Total Products Ltd.

Total Products was established in 1999, with its main business focusing on the design, manufacture and export of top-class living room items. Over the years the company has studied in detail the needs of the market and has built up a portfolio of products to fulfil ever-changing tastes. It believes that life should be joyful – as a result, its products are designed to add fun and convenience to occasions. While buyers can simply select from the company's new and original designs to satisfy the requirements of the fashion fans, OEM projects are also welcome.
