Vidrio Ecológico, S.L.

With more than one century of experience behind it, Vidrio Ecológico is well versed in the need to gear its designs to changing market demands, and now has more than 10,000 moulds and products that it sells all over the world. All the items are 100% ecologically recycled. Each is developed with functionality and beauty in mind as well as sensitivity to the environment. It strives with each collection to combine the practicality of recycled glass with innovative shapes in the vanguard of design.
