Progressive Importers Limited

Foreign Accents International, the brand name of Progressive Importers, returns with its classic fusion of East and West designs. The company designs and manufactures an exquisite and exclusive collection of handmade, aged ceramics suitable for markets worldwide. It aims to keep the art of hand craftsmanship alive, and in doing so customers are offered original pieces. The success of the collection lies in the unique mix of traditional oriental, which plays an integral part in the design, blended with an influence of modern western, so suited to the discerning buyer.
